

Thank you for choosing TNT Sound Systems for your wedding reception. Here are some of the most frequently asked questions ...more info at: www.tntsoundsystems.com

Q. Most Sound Systems provide a single DJ...Why does TNT provide 2 DJs for my reception?

A. By providing a 2 person team, TNT ensures that the music and events portion of your reception runs smoothly. Generally, one of the DJ's is responsible for manning the music system, providing non-stop music (the right song at the right time) to keep the dancing going. The other DJ acts as the coordinator of the events, Emcee, and also provides assistance to the sound system.

Q. What activities during a wedding reception will the emcee coordinate and announce?

- A.
- Introduction of the Bridal Party
 - Announce the cutting of the cake
 - Announce the Best Man's toast
 - Announce and coordinate the Garter and Bouquet Ceremony
 - Announce and coordinate a Dollar Dance if requested
 - And any other events taking place during your special evening

Q. When does the DJ/Emcee team usually arrive at the function?

A. Your DJ/Emcee team will arrive approximately 30 minutes from the contracted starting time. They will set up the sound system and be ready to play music by the contracted start time.

Q. What kind of music and how much do you bring to functions?

A. Each of our DJ teams bring thousands of popular songs to each event. We continually add new songs to our collections. Our DJ's bring music from Big Band to Top 40 and include all genres. Oldies, Rock, Country, Motown, Top 40, Hip Hop, Dance, R&B and so on.

Q. How do you know what kind of music will keep my reception going?

A. Traditionally, most wedding guests respond (by dancing) to songs they know. Songs that have an easy beat to dance to. There are approximately 200 or so songs that are the most popular dance songs and work well at most receptions.

Q. What mix of music will you provide at my reception? How involved in the selection of music should we be?

A. By talking with you prior to the event, we get a good feel for what type of music you and your fiancée like. We keep this in mind when selecting songs during the night and will certainly include your personal favorites.

Since your reception will include a hundred or more of your friends and family that you want to have a good time, and their musical tastes will vary greatly, our DJ's mix up the music to ensure all of your guests get to dance and enjoy themselves. Limiting music choices or filling the play-list with one type of music may diminish the effectiveness of our DJ's to entertain all of your guests.

Q. What songs are we (Bride and Groom) required to choose and/or provide?

A. The bride and groom traditionally will choose the songs for: their first dance, the bridal party dance, the father and bride dance, and the mother and groom dance. TNT makes every effort to have the songs you choose. However some songs may be unobtainable in the compact disc format. If TNT does not have your song choice or is unable to obtain it a second choice may be necessary.

Q. Will you play many slow songs?

A. Under normal circumstances, our DJ's will play 6-8 fast songs followed by 2-3 slow songs in each set. This helps ensure all your guests, young and old, have the opportunity to dance and enjoy the evening.

Q. Are we required to provide meals for the DJ's

A. Usually, the DJs, photographer and/or videographer are invited to take part in the meal and it is appreciated. However, you are not required to do this.

Q. Are we required to tip the DJ's

A. Our DJ's are paid an hourly wage for the hours you use our service. A tip is not required, you may however, provide a tip if you feel the level of service they provided you warrants one.

Q. When/How is the balance owed paid

A. Unless you have paid the balance prior to the night of your reception, it is due that night. Our dj's can accept payment in cash or check form only. Any additional hours added that night are also payable that night.
